## WORK EXPERIENCE

**Web Developer — InAmigos Foundation** June 2025 – July 2025

- Analyzed website content, layout, and user experience.
- Suggested improvements for better usability.
- Learned and applied basic HTML & CSS concepts.
- Researched and supported website improvement tasks.

## PROJECTS

**ARTISTHOOD — Full-Stack MERN Platform**

*React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

- Built a full-stack MERN platform connecting artists and clients for discovery, portfolios, collaboration, and hiring.
- Built as a team project, with my primary contribution focused on backend development, API integration, and booking workflows.
- Designed MongoDB/Mongoose data models and implemented database operations for core features.

**DISHPIX — Social Food Platform**

*React.js, JavaScript, Node.js, REST APIs, Vite*

- Built a full-stack social food platform supporting posts, ratings, comments, likes, and restaurant content.
- Developed responsive React components integrated with backend REST APIs; separated the app into frontend and backend layers.

**PORTFOLIO — Personal Developer Portfolio**

*React.js, Vite, Tailwind CSS, JavaScript, Vercel*

- Developed and deployed a responsive personal portfolio using React.js, Vite, and Tailwind CSS.
- Built reusable components and integrated project, social, and contact sections.
- Deployed production site on Vercel.

**COLORZPRO — Color Palette Generator**

*JavaScript, Tailwind CSS, Vite*

- Built a responsive color generator with palette generation, color locking, HEX copying, shades/tints, CSS export, and keyboard controls.
